

## REMARKS

Claims 1-83 remain in this case without amendment. Claims 1-83 were allowed and ready to issue and the issue fee was due to be paid March 5, 2007. A Request for Continued Examination (RCE) is filed concurrently herewith. The application has been amended to add new claim 84 directed to a computer, as Applicant's invention is directed to an apparatus not just a method. The apparatus claim corresponds substantially to allowed method claim 56 and thus, it is believed that the Examiner has already searched the relevant art and made a patentability determination with respect to the basic subject matter. Thus, it is respectfully submitted that new claim 84 is patentable in view of the prior art of record and in condition for allowance. It is respectfully submitted that this case can pass to issue.

Respectfully submitted,
